

The truth about Vincent Waters & Lisa Patton/Robertson

Posted by Eyespy - 26 Jan 2015 17:06

Many posts have been made to date regarding Lisa- Marie Patton and Vincent Waters recent behavior. Let me shed some light upon this pair. The other posts have failed to include some truth.

1. I have personal knowledge and witnesses as to what this certain "female" has done in the recent past. This includes having a proven affair with said Vincent Waters. Breaking up her family, which included young children. Being --redacted-- in financial matters and refusing to financially support her children who do not wish to see her.

2. I believe that it is disgusting that these people hold any posts within our local community due to the unethical and unmoral behavior. The amount of involvement that this pair have within community organisations is disgusting.

3. Someone that holds a PVG and works with vulnerable people should be responsible and not vindictive. How come you feel that you demand a right to bully older citizens in our local community? You should be supporting them as best as you can. Hypocrite.

So I would like to put a question to Miss Patton, since I know you read this and are a fan of the page...

Do you pay for your children or have you ever contributed towards your children, since in certain posts in your twitter @thornliebanktra @readalot06 ... You wish to end poverty and support families, supporting food banks, yet you are not willing to support your own and better the lives of your children by contributing towards them financially.

As for your "partner" as he has been referred to previously, how is this conflict of interest going? As far as I am concerned, anyone who represents tenants and residents should remain impartial in regards to political parties. How come the pair of you gang up against other people in certain groups. When Waters takes a disliking, you take a disliking. Your dirty looks don't go unnoticed. So tell me, Lisa. Does this tweet sound impartial?

"RT Here's a great way to spend a £1. Crowd fund to help @kirstenoswald get Jim Murphy Out."

While carrying out your very infamous and pathetic attempt at an ice bucket challenge you also held a Yes Campaign poster. HMM... POLITICAL.

Don't mince your words, take a look in the mirror before it cracks as hard as that may be and ask yourself "Why am I political bully?" Feel free to post the answer.

The truth will always come out eventually.

This pair seem to be getting quite a reputation for their unpleasant treatment of others.

Ms Patton has previously denied being political but seems to be actively involved with the newly announced SNP East Renfrewshire candidate for Westminster. She was also standing outside a polling station with her Elected Councillor SNP "partner" on the day of the referendum. This seems like political behaviour to me.

Lisa Patton - not political! Why then did she allow Councillor Vincent Waters to display his 'SNP' Message Board outside a Thornliebank and Giffnock Tenants and Residents Meeting outside Giffnock Library. There is a serious conflict of interest here. She also at a recent meeting on Rent Consultation for Registered Tenants Organisations spoke up twice on behalf of ERC but not for her tenants and residents. Who does she actually work for. It has been noted that she is a frequent visitor in the housing department and Cllr Waters is very good friends with Phil Dawes, Housing Manager is this why RTO's are being denied a voice because of the manipulative tactics of this pair. Thank God for forums like this where we can express ourselves. About time something was done about this despicable pair of Narcissists.

Miss Patton has denied to be alot of things. However, she is indeed these things. Previously, she infact

was not political. Since meeting her "partner" she has been swayed and the pair are freely roaming about East-Renfrewshire like Bonnie and Clyde.

Can someone tell me how a 40 year old woman with no disability can get a council house in the area she would like after staying with her parents in a 4 bedroom bungalow freely and happily in Giffnock within three weeks of walking out of her martial home?

That's right. She declared herself homeless among other things.

When there are genuine vulnerable people and families on waiting lists waiting for a home. Tell me, would her "partners" power influence this if he is friends with certain housing officers. Mr Waters has on several occasions abused his power as Councillor. This is not something new to him.

I am aware that this certain councilor abused his powers to get seven police officers to Miss Pattons martial home to retrieve her belongings. Giving faulse information to the police (lyinrg). When police arrived, they laughed off these lies and her husband welcomed Miss Patton to get her belongings, allowing them in the house and commented that the situation of a councilor phoning the police and wasting police time was disgusting. Miss Patton retrieved her stuff with no issues while MR WATERS was standing at the bottom of the family garden as Miss Pattons ex husband requested as one of her children were in the family home.

This information about Mr Waters phoning the police as a Councilor which he stated to them he was and that he was performing Councilor duties was in fact confirmed by a police attending this "incident".

Abusing the system to benefit yourself and close others is not part of any role as a councilor or Lisa as someone who so called represents TRA's and other organisational groups.

Mr Waters does not only list Miss Pattons address in Woodfarm as an interest of his but his ex wives address also in Barrhead. He has however bought another house in the Area of Barrhead and continues to reside there often. This is not listed as an interest of his on the Councils Website under declaration of interest.

Some people have no conscience. Don't say you're one thing then do another. Neither of them have a

right to dictate, represent or bully others.

This pair need stopped and caught... and I have a big net.

We all know about her previous for wasting police time - keeping dangerous radicals out of an allotment AGM.

I fear all this will effect the local SNP - if only all their new supporters knew what was really going on.

Question is how do they not know. There are so many people this pair have crossed, it's hard to believe that the SNP don't know what's going on. I've been told that Cllr Waters has already been told by his party to toe the line. Clearly he listened!!!
