Why have they always got to try and prevent information going out to residents, they should be embracing the legislation and freely giving it out. There should be nothing to hide, they work for us?

Reply to Anthony McReavy, Chief Executive of ERCLT, thanking him for his initial contribution -

I received an apology from Head of Environment for giving wrong information in response to an FOI requested and submitted by the Convenor of Environment.

You started all this off by saying -

' We have had discussions with the council regarding a building condition survey of Eastwood Park Leisure Centre which the Council has commissioned. My understanding is that this is being withheld at present pending publication by the council sometime in the next 3 months. '

Maybe you had something to gain by doing this but,

You have to be congratulated on your openness and giving the Council Residents/Taxpayers of East Renfrewshire the respect they deserve.

If there have been surveys reports etc then the Council Residents/Taxpayers of East Renfrewshire should know about these.

They should also be made aware when information is being withheld from them.

Again, you have to be congratulated.

Obviously, East Renfrewshire Council and their Councillors would appear to think differently.

Thanks again
