We will report on this in due course.

Our initial scan of the spread sheet showed a payout to voluntary clubs and organisations.

Whilst these clubs are very worthwhile and assist the people that they are interested in, we were unaware that our council tax was being handed over to these organisations.

We have only scanned through to A (R) on the spreadsheet and so far we have accounted for in the region of at least Â£218,000 handed over to charities, voluntary organisations or community groups.
