Within a few days of joining Friends of Huntly Park and another popular one, Go Giffnock, they had been apparently removed and banned.

Mystery surrounds why these actions were undertaken by the administrators of these Facebook pages.

Before we close off on the facebook accounts there is one other thing to report.

One day someone posted on Friends of Huntly site a link to a newspaper article from 2016, which appeared to relate to the angel.

This was the response from the angel.

More to follow, including

Involvement of the Police

Psychic Powers

Jump before you're pushed

and much more.....

The angel then apparently complained to Police Scotland that the Facebook message was a Breach of the Peace and had allegedly placed them into a state of fear and alarm.

The Angel phoned 101, received an incident number, the following day was visited by officers and provided with a crime reference number.

It appears that the Angel was provided with advice from unknown friends on Facebook as to the identity of a suspect who had posted the link.

However in a sudden twist the Angel added in an addition complaint to the Police Officers, there has apparently, in their belief, being a sustained campaign by a person on social media against Elected members, members of council staff, councillors and volunteers.

Apparently a 'person of interest' has been identified and the Angel is going to lead the hunt and has been assured that Police Scotland will follow his lead to deal with this individual.

Staff at Newsline are so impressed by the physic powers shown by this individual, who can identify

someone who has allegedly harassed and bullied others over many years.

Breaking news, once again.

Very childish behavior.

Two peas in a pod.

and more just breaking today.....
