

New community angel for East Renfrewshire ?

Posted by Newsline - 25 Jun 2020 19:23

Word has it that there may be a new kid bidding for recognition.

We will keep you informed.

".....is there a feeling out there that the group could benefit from a more formalised governance structure?"

"I will be happy to volunteer as a litter collector, but I can offer some legal and governance support to the leadership. "

That was a very small, and we mean very small amount of the material that was posted on this groups Facebook page.

Then the angel posted that they would be 'litter picking' in the park, starting on the Saturday at 4pm, and every Saturday thereafter.

Like minded citizens were encouraged to join the expedition.

Newsline understands that the Huntly Park committee were unaware of this proposal until they saw it on their Facebook page.

Apparently the same as they were unaware that their committee required reorganising.

It was then declared on the page that the local Boys Brigade had previously arranged to undertake a very worth while 'litter pick' on the Saturday at 12 noon.

Also that Friends of Huntly 'litter pick' every Sunday afternoon.

Not to be deterred the angel said they would come out and assist the Boys Brigade at 12 noon and return at 4 pm.

If there was any litter left they would carry on collecting with the 4 pm volunteers, if no litter they would move onto another park and start picking there. (Pied piper comes to mind.)

All volunteers required to bring there own gloves and bags.

Also take any rubbish collected to their own homes.

Then we move on a few days.....

The angel: The mystery surrounding the Social Media bans.

Breaking News

Email in from the chair of Giffnock Community Council (Jack Powell)

In response to your email regarding membership issues in Giffnock Community Council.

I referred your enquiries initially to ERC as they are responsible for the Rules of Establishment under which community councils operate, and that they would be best placed to deal with matters relating to the interpretation of these rules.

However, since they have passed the issue back to us:-

YYYYYYYYYX approached the community council shortly after it was established in September last year. As YYY is resident in the Merrylee Park/Braidbar Area, and as the membership compliment for that area was full, we were not able to co-opt YYY. I liaised with ERC regarding using the associate membership option and received no objections from them. (They are the ultimate arbiters regarding the rules of establishment). At the time also indicated that YYY was looking for alternative accommodation in another area of Giffnock, which would then allow GCC to co-opt YYY.

The legislation is perfectly clear, therefore it appears that this angel is not and cannot be an associate as they do not fit the criteria.

Much more of this later.....
